ARRAY OF FAST FOOTERS HEADED FOR TANFORAN

Stars Of Contests On Eastern Tracks This Season To Be Seen In Action Here

Seabiscuit and Heelfly—the two stars which recently dead-heated the Laurel Stakes in Maryland—will clash at Tanforan, it became known this week. Word was received that the T. P. Morgan horses, headed by Heelfly, would be campaigned at the 25-day fall meeting here, which whirls into action, Tuesday of next week, November 16.

Heelfly arrived at Santa Anita several days ago, after having been taken suddenly ill en route from Maryland. His illness ,it developed, was not as serious as at first thought.

Veterinarians who were rushed to meet the western bound train at Arizona, declared that Heelfly quickly responded to treatment and is now again in normal condition.

Seabiscuit, leading money winenr of the year and ranked as one of America's best horses in recent years, is scheduled to ship the coming Sunday, heading the powerful stable of Charles S. Howard, which also includes the handicap winner, Advocator.

Howard has special quarters at Tanofran and Seabiscuit has always been trained over a racing strip here for all of his northern California races. He captured the $10,000 added Marchbank Handicap here last spring.

Both Heelfly and Seabiscuit will be pointed for the $10,000 added San Francisco Handicap, December 18, at a mile and a sixteenth. It is likely, however, they will both be given preparatory races first.

Coincident with the news of Heelfly's intended campaign, was the word received that Neil S. McCarthy, southern California breeder, was shipping up the one-time stakes star and stallion, Tick On, for another campaign at Tanforan. Particularly partial to the well cushioned footing at the San Bruno course, Tick On raced with distinction here last fall.

Also included in the McCarthy shipment is the fast two-year-old filly, Muse, which will be pointed for the $5,000 added Lassie Stakes, December 14.

CONGRESSMAN NOW ON WAY TO WASHINGTON

Expects To Arrive At Capital City In Time To Answer Roll Call When Congress Convenes Next Month

Congressman John J. McGrath, accompanied by Mrs. McGrath and daughter Maureen, is en route to Washington, having departed from San Mateo yesterday evening.

Before leaving the Congressman said that he believed the Peninsula to have an even chance to obtain the $15,000,000 naval supply depot, as against competition from the Oakland side.

He said that he thought the plans now in the hands of the commandant of the Twelfth Naval District Admiral Arthur St. Clair Smith are equally as good as as those submitted by the Oakland backers.

Both Congressmen McGrath and Richard J. Welch have declared that they will fight for a proposition to erect the base on this side of the bay to the finish.

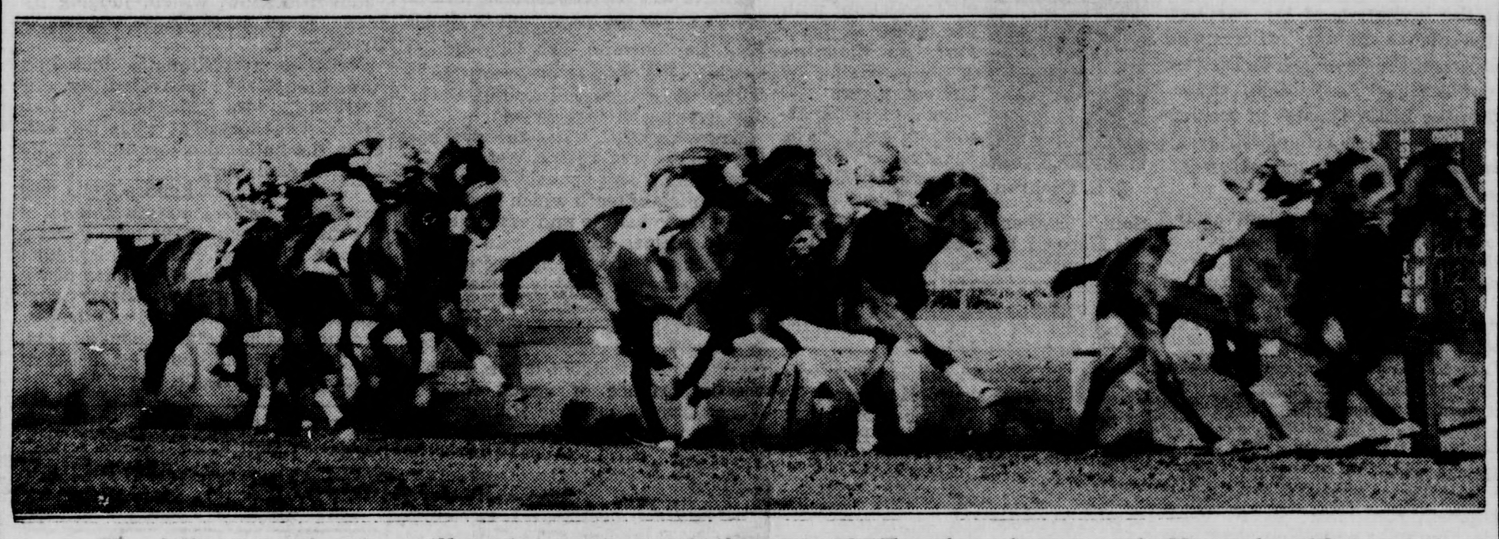
They're Off At Tanforan!



The fall season of racing will get into action at the home track, Tuesday of next week, November 16, to continue for 25 days—each week day excepting Mondays. Nine other handicaps are slated and the running of the California Lassie Stakes, with $5000 added, will occur on Tuesday, December 14.

AWARD IS MADE FOR EXTENSION OF WESTLAKE

Pacific States Construction Company Wins Contract As Lowest Bidder

Another important step was taken at the meeting of the City Council, Monday evening of this week, when a contract was awarded for the extension of Westlake avenue through to Junipero Serra boulevard.

When the time arrived for the opening of bids for the work of extension and placing curbs and gutters, the clerk opened and read the offers submitted by the following figures, with the total cost of the work:

Union Paving Company, $4342.50.
Charles L. Harney, $5102.00.
Pacific States Construction Company, $3763.00.
Fay Improvement Company, 4070.-50.
Pacific Pavements Company, $5123.50.
A. G. Raisch, $4178.00.
Eaton & Smith, $4194.00.

At the conclusion of the reading the bids were referred to Assistant City Engineer Robert Klassen for examination and report to the Council.

Later the engineer reported and recommended the contract be awarded to the lowest bidder, aPcific States Construction Company, for the total sum of $3763. The recommendation of the engineer was concurred in and Mayor Selmi was authorized to execute the necessary documents.

The estimate of the engineering department was approximately $4900.

NEW HIGHWAY NOW COMPLETED

Yesterday the new 5.6 mile section of the Ocean Shore Highway, constructed during the past 15 months at a cost of $375,000, was thrown open for traffic.

The old tortuous Pedro Mountain sector of the coast road will be left open for travel by those who must use it and for those who wish to drive the scenic although steep and winding route again, but the main travel between Edgemar and Moss Beach will be routed over the new, wide gently sloping highway that skirts the ocean.

Providing a fast coast route, the new road, although as yet unpaved, will allow motorists to travel from Half Moon Bay to San Francisco in 35 minutes.

The Pedro Mountain link, one of several in the San Francisco-Santa Cruz highway, cost the state $250,000, San Mateo County $24,000, Santa Cruz County $48,000 and San Francisco County $51,000.

PRESIDENT IN PROCLAMATION OF THANKSGIVING

Says We Cherish No Selfish Designs Against Any Other Countries

President Roosevelt, in a Thanksgiving proclamation this week, gave voice, among other things, to the following thoughts:

"A period unhappily marked in other parts of the world by strife and threats of war finds our people enjoying the blessing of peace. We have no selfish designs against other nations.

"We have been fortunate in devoting our energies to our resources to constructive purposes and useful works. We have sought to fulfill our obligation to use our national heritage by common effort for the common good.

"The harvests of our fields have been abundant and many men and women have been given the blessing of stable employment," he concluded:

"Let us, therefore, on the day appointed, forego our usual occupations and, in our accustomed places of worship, each in his own way, humbly acknowledge the mercy of God from whom comes every good and perfect gift."

EIGHT CARS IN HIGHWAY CRASH AT SAN MATEO

Beginning With Pile Up Of Two Machines And Ending With That Grand Total

Beginning with just another two car collision, Saturday night of last week, the crash developed into a series of pile ups in which eight machines were involved and three persons were more or less seriously injured.

The mixup occurred at Howard avenue and the Boyshore highway ,at San Mateo, about 8 o'clock in the evening.

The thing started when a truck driven by Peter Tiscani, San Francisco, crashed into a car driven by 16-year old John McNally, 612 South Eldorado streets, San Mateo, as Mc-

TWO KILLED BY AUTO AS THEY CROSS STREET

Pedestrians Struck In Dark Spot At Intersection With Fatal Results

While in the act of crossing Alemany boulevard at Bayshore highway, Saturday evening of last week, two pedestrians lost their lives in an automobile accident when struck by a car traveling west.

Joseph O'Farrell, 54, of 157 Boonte street, San Francisco, was instantly killed.

His companion, Thomas Carney, 47, of the same address, suffered fractures of both legs. He succumbed to his injuries, Sunday, at San Francisco Hospital, where he was taken after being felled by the machine.

The driver of the car, Earle Young of 325 Halloway avenue, San Francisco, stopped and placed the victims in his machine and conveyed them to the hospital. He was at first charged with negligent homicide, but was later released, as police declared the accident to have been unavoidable.

STATE HARBOR BOARD OFFERS SITE FOR BASE

Location Near Hunters Point Said To Be Feasible Location For Improvement

A site for a gigantic base at India Beach, in San Francisco, was this week tendered to the United States Navy Department, the offer coming from the Board of State Harbor Commissioners, subject to enabling legislation.

When the offer was made to Rear Admiral A. St. Clair Smith, U. S. N., Twelfth naval distrist commandant it was pointed out that the government might spend $15,000,000 in construction work. Such an appropriation would be fought for by Congressmen John J. McGrath of San Mateo County, Richard Welch of San Francisco and others, it was declared.

It was pointed out that Marin County has its Hamilton Field, Sunnyvale its dirigible base, and the East Bay its navel air base at Alameda, and it was thought that the Peninsula now deserved the naval supply depot.

The area offered was valued at $504,000, including land just north of Hunters Point, just outside of San Mateo County. The site, as well as Candlestick Point in San Mateo, was studied by Senator David Walsh and his committee, recently.

Remember Those Who Can Be Saved

This week we celebrated the nineteenth anniversary of the signing of the Armistice.

During the great conflict more than 50,000 Americans lost their lives. But here is something else to think about: In the 19 years since the Armistice, nearly 500,000 men, women and children have been killed on our streets and highways!

As we reverently remember the boys who gave their lives in the World War, let us also remember all the lives that can be saved through a more careful use of the streets and highways.—San Mateo County Traffic Safety Commission.

MOVE STARTED TO ACQUIRE SITE OF PLAYGROUND

Mayor Selmi Gives Notice To Council That He Will Sponsor Appropriation Of Money For Purpose

A definite beginning was made at the City Council meeting, Monday of this week, for the acquisition of property for the purpose of establishing recreation areas for the citizens of the community in the near future.

Considerable discussion developed at the meeting when Mayor Paul Selmi announced that, at the next Council session, he would initiate a movement to appropriate funds for the purpose of acquiring suitable tracts of land on which to establish recreational centers.

Several sites were under consideration and it is likely that mention will be made of others in various portions of the cty.

The need for parks and playgrounds here has long been acute and recognized as an absolute necessity by all progressive residents. Now is the time for all public spirited citizens to get behind the City Council in their efforts to secure improvements for the welfare and comfort of the community members.

It was stated that the proposed program will be worked out in conjunction with both the high and elementary school authorities and will have their full co-operation.

A movement will also soon be begun looking toward the beginning of improvements on the Daly City Park in the near future. A baseball diamond, tennis and handball and basketball courts and playground paraphernalia for children of all ages has been mentioned as contained in the contemplated program. This latter project will, no doubt, be assisted by grants from the Federal government. What we need in Daly City is more opportunity for our citizens to have healthful and adequate recreational facilities and this surely is a move in the right direction and one bound to meet with ultimate success.

As soon as arrangements can be made to acquire parcels of land of a proper kind we should see the institution of a recreational program to meet a long standing public clamor.

DENTIST GIVES TALK ON PROPER CARE OF TEETH

Delivers Address And Makes Demonstration To Members Of Girl Scouts

Exceedingly interesting and well planned, was the educational talk on "The Care of the Teeth" given by Dr. W. J. Lantheaume, Daly City dentist, to the Girl Scouts of Troop No. 2, during their regular meeting, Saturday evening of last week.

Knowing, that what the eye sees the mind more readily retains, Dr. Lantheaume had brought several life size models of teeth which he allowed the girls to handle and examine, and two machines for the enlarging of pictures of various dental conditions. These were thoroughly explained to each of the thirty girls present.

By using amusing demonstrations and easy to understand words, Dr. Lanhteaume instructed the girls on the importance of dental hygiene, which often means the difference between health or sickness in later years.

Before leaving Dr. Lantheaume announced that he would give prizes for the three best essays written by the Girl Scouts on "The Care of the Teeth." Two weeks will be the time limit allowed for the contest.

HEALTH NURSE IN ADDRESS TO HIGH STUDENTS

Stresses Advantages To Citizens Of Frequent Visits To Families In The Rural Districts

"The work that the Red Cross does in San Mateo County" was the subject of the address delivered by Mrs. Opal Fennell, Red Cross nurse, to the students of the Jefferson Union High School, Monday afternoon of this week.

She said the Red Cross gives direct relief to ex-soldiers, helps the blind and performs many civilian services.

The speaker stressed the importance of the rural school nurse who goes into the home where there is sickness, takes care of the patient and teaches the family what to do until she returns. She remains as long as is necessary to care for the patient. The regular charge is $1.25 or as much of this as the patient is able to pay. This service does not pay for itself and depends on the contributions of the public.

Classes in home hygiene and the care of the sick are taught to adults at a moderate cost. Anyone interested in these classes can obtain information from the high school or the junior college. This course is taught by graduate public health nurses, and it is much like the extention courses given at the junior college.

Miss Juanita Young, physical educational instructor, introduced Mrs. Fennell to the audience.

STATE TURNING OUT HIGH CLASS RUNNERS

By J. W. MARCHBANK

I read the other day the opinion of an expert that I think is worth quoting. He said:

"Thoroughbreds bred and trained in California not only possess the fundamental requisites of speed and endurance, but may be fairly said to represent a new type and a further advance in the evolution of the race horse."

I know the words are true from my own experience at Heather Farm and from observation of the animals reared at other nurseries in the state, north and south.

The agent of a breeding establishment in the south made the remark the other afternoon that the two year olds out this year do not measure up to the quality of those appearing for the first time under saddle last year. If that statement were true it would look as though we were going backward instead of forward in our breeding operations. But I don't see anything in it. Over at Heather Farm, for example, there is a noticeable improvement in size, bone and substance each year. That comes principally from the painstaking care given all the stallions and broodmares. The class of the foal depends altogether upon the attention extended upon his parents. That is a biological truth I learned early in life.

It may be noted that the Lassie Stakes, for California bred two year old fillies, will be renewed at the Tanforan meeting on Tuesday, December 14. That's the last Tuesday of the period of sport beginning next Tuesday, November 16.

There are thirty-five eligibles to the Lassie and a large field may be expected to line up in the stalls. The misses are representative of the California breeding farms and the winner will be deserving of the crown of two year old queen.

SOUTH AFRICA

Only 4 per cent of the land in the Union of South Africa is under cultivation, although two-thirds of it could be farmed.

ROOSEVELT PROGRAM HOLDS OUT BEST HOPE

By J. W. MARCHBANK
Pioneer in Frontier Mining Work

"Why Pay Taxes" is the intriguing title of a recent book. The author, David C. Coyle, is held in high regard by the Roosevelt administration, on account of his forthright handling of economic subjects.

For some time Wall Street has been endeavoring to force the repeal of both the undivided profits tax and the capital gains tax, accomplishments in the present regime worth a good deal to the people, but not at all liked by speculators always on the lookout for tremendous gains.

It may be worth while to devote some space to the suggestions of the publicist as to reasonable amendments to the undivided profits tax. He offers:

A commission, including experts in accounting, should work out a system of accounts for tax purposes that would show real profit and loss in a proper relation to interest and dividends, and that would distinguish working capital items from fixed capital.

Losses and gains should be spread over a period of years.

Upkeep should be distinguished from expansion, and the tax should rest only on profits used for expansion.

Dividends in stock or other paper of the company should be taxed as not having been actually distributed.

Net earnings up to, say, $15,000, should be exempt from the undivided profits tax.

* * *

One keen observer has remarked the "Street" goes into a cold sweat every time it recalls a "bare knuckled" address, last spring, by W. O. Douglas. As mentioned in the last issue of The Record, Douglas is now chairman of the Securities and Exchange Commission. The selection of Douglas as the head of SEC gave the New York Stock Exchange the jitters and apparently it is carrying out a threat to the President that it would take to the warpath.

* * *

It is apparent that the Exchange, as more than one writer has pointed out, still lives in the memory of the 1920s and tries to maintain in million share days the proportions it had in five million and seven million share or more days. There is not enough business for the 1500 members. Many of the brokers are rich men's sons for whom there was no other career.

* * *

President Roosevelt rescued us from social chaos into which we had been plunged by the misdirected efforts of a president of the opposition party. However, in order to preserve our democratic form of government we must have parties and, accordingly, it is interesting to note what is being done to rejuvenate the Republican party. Words of the plain speaking William Allen are to the point. The Kansas sage says:

"The Republican party must give up hope of nominating a plug hat or anybody from the plug hat section. Fiorello La Guardia, either in person, or, even better, as a type, represents the hope of victory in this country over the Democratic party. The Republican party can realize that hope or reject it.

"La Guardia is not the only candidate for president. It isn't La Guardia or bust. But it certainly is the La Guardia type—the man who is a proved vote getting winner in the great cities, who has a record for cold honesty, executive competence and stalwart independence, and an open liberal mind not afraid of evolutionary progress."

Lesson Sermon Of Christian Science

In all Christian Science churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., a Lesson-Sermon will be read Sunday, November 14, on the subject "Mortals and Immortals."

The Golden Text will be: "Because ye are sons, God hath sent forth the Spirit of his Son into your hearts, crying, Abba, Father. Wherefore thou art no more a servant, but a son; and if a son, then an heir of God through Christ" (Gal. 4: 6, 7). Bible selections will include the following passage from Colossians 3: 3, 4: "For ye are dead, and your life is hid with Christ in God. When Christ, who is our life, shall appear, then shall ye also appear with him in glory."

A passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included, which reads as follows: "In his resurrection and ascension, Jesus showed that a mortal man is not the real essence of manhood, and that this unreal material mortality disappears in presence of the reality" (p. 292).

Unemployment Census Cards To Be Distributed Next Tuesday—And Let's Get Them Back On Time

(By Hart Goodrich)

"Somebody said it couldn't be done—and he did it!" So goes that famous poem, and it might apply to John D. Biggers, who is conducting this nation-wide census we are all hearing so much about. "It is impossible to get most people to fill out a card, when they aren't paid to do it, etc., etc." But the present Administration wants to know exactly how much unemployment there is in this country before making any more plans than those in existence for unemployment relief.

It would probably take our Census Bureau five months to collect the unemployment census material and another eight months to get the date in any useable form. The Administration must have it now—in fact, it is expected to have this necessary information tabulated by January.

However, it is most important that every Mr. and Mrs. American Citizen do their small part by filling out the card to be left in their mailbox on next Tuesday, November 16.

Blanks are to be distributed to 31,000,000 families, which is the largest census of its kind ever taken. Only the draft cards, the social security census and the soldiers bonus deliveries are remotely comparable in size to this undertaking.

Immediately following completion of this voluntary enrollment John Biggers is going to conduct, in scientifically selected areas throughout the country, an actual house to house test census under the field direction of especially qualified post office inspectors. These areas will be selected to contain every variety of neighborhood which, added together, should give a true cross sectional picture of national unemployment conditions. This test will encompass about two million people, and it will give him a yard stick by which to check the results of your great voluntary registration. He will compare the number of unemployed who report to the government in all of these test areas, both country and city, with the number of unemployed reported from these same areas as a result of the house to house canvass.

John Biggers undertook this enormous task and he will not accept any salary for it. It is up to every one of us to help him.

"It couldn't be done—and he did it!" Will he? It is up to us.

NOTES ON OUR ELEMENTARY SCHOOLS

Immigration Is New Study Subject

One of the activities dealing with life situations in the Eighth Grade is immigration. Miss Vireno, social studies teacher, directed these pupils in appointing a committee, consisting of Annaliese Trautmann, Richard King, Donald Laston and James Parker, to investigate our local night classes at the Jefferson Union High School. Through the co-operation of the principal, Mr. Ferguson, the committee secured the following information: there are enrolled this term seventy-six adults, forty-two of whom are foreigners. In the classes the subjects taught are: typing, shorthand, English and Americanization.

The government has found that about 50 per cent of the total population are foreign born and children of foreign born parents. In many of the schools of California the number of children of foreign born parentage ranges as high as 75 per cent.

This information was organized in the form of a mathematical line and bar graph. The chart was shown to Mr. Ferguson, who showed a profound interest in this organized presentation of worthwhile material.

Pennant Is Won By Eighth Grade Room

The pennant presented to the Woodrow Wilson Elementary School by the students of the eighth grade was won by the same room. This pennant shows that students in this room were the first in the building to display 100 per cent co-operation in their activity for the school paper. A definitely enthusiastic, justly proud group of children are displaying this felt pennant on their classroom door.

Also on this evening of November 16 a palatable dinner will be served, at 6:30 in the school by the Woodrow Wilson P. T. A. This will precede the regular meeting of the organization. Mrs. Hill, president, and Mrs. Barker, chairman, anticipate a large gathering for the dinner meeting.

HONOR SCHOOL AT PRESS MEET IN PALO ALTO

Jefferson Union Hi Is Chosen Head Of Academic Newspaper Association

Jefferson Union High School was chosen president of the Central California Scholastic Press Association at the annual convention held at Stanford University, Saturday of last week.

It is the first time that Jefferson has been selected for this honor. Totem Pole Advisor Clive M. Saiz, was elected president of the Advisors Association. The Central California Scholarship Press Association covers the area north of Santa Maria and numbers all of the high schools in this vast section in its membership.

Outstanding speakers on the program were Kathleen Norris, distinguished journalist; Royal A. Gunnison, Christian Science Monitor representative; Robert Garred, in charge of radio news, KSFO, San Francisco; and John Thompson of the San Francisco News.

The faculty advisors followed a slightly different program from the students, and at 2 p. m., they listened to an address by Dr. Graham Stuart, professor of political science at Stanford.

In his talk, Dr. Stuart stated there was a great similarity between conditions now and those in 1914. Armaments are heavier now than they were then. At that time two and a half billion dollars were invested in arms; there are now eleven billions being spent for arms. Millions are being drilled all over Europe. This startling statement was also made by Dr. Stuart: "The League of Nations has the machinery to stop any war if the nations wish to enforce it. It is an agency far greater than anythng in 1914."

Mrs. Kathleen Norris, famed journalist, spoke on "Creative Writing." In her talk she told many points of her life, connected with journalism. She also gave advice which she said could be used in fields other than in writing, as in the following: "Realize that you will be thrown several times a year, but don't let it take effect. A personality is important in writing. Give your best for the present and new nspirations will always come."

Mrs. Norris gave the audience food for thought when she stated that four or five in the present gathering could reach fame in years to come. She explained this by saying that the law of averages demanded it. She especially stressed the fact that one should write on schedule and not when he is in the mood.

The address especially enjoyed by Jefferson students, "Writing for Radio," was made by Robert Garred, who is in charge of radio news on Station KSFO. "Radio writing" is an open field for those with talent. A leading station can at this moment use four adept script and program writers. In the course of his talk, Mr. Garred said that he personally arranges the Sam Hayes news casts when Mr. Hayes is in San Francisco. Illustrating a few points, he read to the assemblage the script of several news casts. Mr. Garred's voice, which carried to all present is clearly an asset to him in radio work.

Entertain Club

Mr. and Mrs. Henry Sieler of Evergreen avenue entertained the members of the M. and M. Club at their home, Saturday evening of last week.

An evening of bridge was enjoyed, followed by the serving of refreshments to the following guests: Mr. and Mrs. K. Farrel, Mr. and Mrs. H. Eastman, Mr. and Mrs. K. Hrusoff, Mr. and Mrs. W. Walker, Mr. and Mrs. A. Bertetta, Mr. and Mrs. J. Mohr, Miss Margaret Barker, Miss Elizabeth McLean and Miss Sophia Knutdsen.

News Of Activities Of Various Patrols

Boy Scout Troop No. 141 meets Thursdays, at 7 to 9 p. m., Grace Church of the Nazarene.

Our troop has secured permission to use certain places on Lake Merced for the filming of "The Tenderfoot" a movie we are making. Most of the other locations have been selected, costumes have been designed and are being constructed and it only remains to raise sufficient funds to enable us to begin actual work on the production.

Saturday of last week the troop conducted a sale of home made candy in Daly City and realized almost $4.

The Indian Patrol had a very sweet time, so we are told, at their meeting, Monday evening of this week, at the home of Buddy Pzrbarowski. They had an old fashioned taffy pull and Scout Allen Rigler couldn't resist sticking his finger in the candy too soon. Result: A blistered finger and a fine chance to demonstrate first aid.

The Waterdog Patrol met in the lower hall of the church and conducted patrol business and played a few games. After closing they went up stairs to a motion picture exhibition of the Nazarene Boy's and Girl's camps put on by Rev. Roy Haynes, church camp director.

Scout Candidate Angelo Ditty has nearly completed his tenderfoot tests and we are assured that he will come into the troop at the investure service a week hence. Other boys who are striving to pass the entrance tests are: Richard Russel, Billy Wilson, Jerold Martin, Elmer Orner, Paul Jones, Billy Braunmeoller and Robert Jobson. Boys who pass the required entrance tests to get into our troop are to be congratulated for, compared to other troops, we are very exacting. The candidate must pass 100 per cent. Chief Raymond O. Hanson has promised to attend our next investure and court of honor ceermony if it is at all possible for him to do so.

Scoutmaster John R. Young has returned from his three weeks vacation during which he made a trip of two thousand miles through the Southwest. He has much to tell that is intensely interesting.

Cub Pack 141 News

Ounr regular monthly Cub Pack meeting will take place this evening, November 12, in the lower church hall. All cubs are urged to be present and to bring their parents and friends. Some of the Cubs are making a real thing of the kindling business. They are making money for themselves and for the Pack treasury as well.

Our pack reregisters this month and we want to do the job on time. All cubs are reminded to keep this in mind.

A number of cubs are working on tests and expect to get their badges of rank at this coming meeting.

Mr. Straughan, pack committeeman, has completed the Baden-Powel Cubbing course which he has been engaged in for the past eight evenings at the Everett Junior High School. Denners John Mosman, Kenneth Claussen, Henry Herting, Robert Sutherland and Den Chiefs Lawrence Christiansen and Robert Brandstorm put on a cubbing demonstration at the leaders school Friday evening of last week. They did a fine job. Motion pictures of our pack activities were shown and were enthusiastically received by the leader. JEFF KNOCKS OVER SEQUOIA IN TIGHT GAME

Contest On Home Field Productive Of Many Thrilling Situations

Mighty Sequoia's high ranking football team received a jolt which knocked them out of the league running when they lost to an inspired Jefferson team, Friday of last week, on the local high school field.

The first quarter took its toll on the heavy Sequoia team when Simpson, Compagno and Wright ran them dizzy with sweeps around end. A long pass, completed from Simpson to Compagno on the six yard line, gave the Indians their first chance to score. Simpson ran around end to the 1 yard line, from where McCune bucked it over. McCune's attempt to convert was blocked and so the score remained 6-0 until the half whistle blew.

Moving from the 39 yard line to the Jefferson 18 yard stripe, Sequoia was deep in Jefferson terirtory for the first time. What looked to be an end to this drive turned out to be Sequoia's greatest break when Dick Wilson intercepted a Sequoia pass on his own four yard line, but on an attempted lateral the ball was fumbled and a Sequoia man pounced on it on the Jefferson two yard line. The visitors could not be held off from this point, and crashed in on their second play. The important conversion was good, and Sequoia took the lead 7-6.

The fourth quarter saw Jefferson bombarding with a series of passes, but they were staved off. With two more minutes to go, McCune was rushed into the game to attempt a drop kick, which seemed to be Jefferson's last chance. This was indeed a spot, but McCune came through with a beautiful 40 yard drop kick to win the game.

The whole Indian team, although outweighed, outcharged and outgained their heavier opponents. Compagno, McuCne and Simpson brought the crowd to their feet many times with thrilling runs and beautiful passes. Simpson capably took care of the kicking and kept the Sequoia team at bay with consistent boots of long yardage. Combined with good blocking by Wright, McCune, Compagno, Olson and Clark the runs of Simpson, McCune and Compagno looked excellent.
